

- The ultimate achievement in penetration.
- Guaranteed to get more hookups with less effort with the patented XPoint hook design.

- The XPoint is patterned after the famous French fighting sword, "Epee". The design maximizes the number of cutting edges yet minimizes the overall resistance due to friction to cleanly and rapidly penetrate even the toughest fish jaw.

USER TRIALS

XPoint has been shown to work particularly well with all hard mouthed salt water species such as Permit, Tarpon, Bonefish, Bluefish, Striped Bass as well as fresh water fish such as Salmon and Steelhead.

X120
Heavy Wide-Gape Scud Hook

Continuous Bend, Down-Eye, 2X-Heavy, 1X-Short Shank, Forged, Reversed, Bronze. Uses: Scud, Shrimp, Grubs, Pupae, San Juan Worm, Nymphs. Sizes: 10, 12, 14, 16

O'Shaughnessy Bend, Straight-Eye, 3X- Long, Forged, White Salt Water Finish. Uses: Salt Water Poppers & Streamers. Sizes: 2, 4, 1/0, 2/0

Take a look...

...at how Daiichi makes the finest hook

Close those eyes!

They are perfect every time. Precision tooled "true" to the design.

Minimal Brittleness

Hardened and tempered to an exact formula.

Unsurpassed Sharpness

We start with a 12 degree angle constant tapered ground needle point. This eliminates irregularities in shape, assuring no weak spots and gives amazing speed of penetration. Every Daiichi hook is also chemically sharpened. We immerse each hook in a special bath that deburs their points and makes them "sticky sharp".

State of the Art Barbs

Our standard barbs have a low profile design that creates an increase of wire diameter of only 40%, while our mini-barb hooks create only a 20% increase. Many lost fish and broken points result from over-sized barbs. Not with Daiichi!

Best Materials

Made of *High Carbon Steel*. This gives each hook superior strength and a long point life.

Superb Finishes

We offer multiple quality finishes that are evenly and smoothly applied. Each hook is a work of art.

Consistent Shape

The bend, the gape, the barb, the eye - all perfect. Time and again Daiichi hooks will impress you with their unblemished quality.

More Serious Anglers use Daiichi hooks for their patterns.
